LEGISLATIVE COUNSEL'S DIGEST

AB 2591, as amended, ~~John A. Perez~~ Feuer. State finance: budget process: ~~nonrecurring revenue~~.

Under existing law, duties and responsibilities are imposed upon the Governor and the Director of Finance relating to the preparation and submission of the annual state budget to the Legislature, including, among other things, providing a complete plan of all proposed expenditures and estimated revenues for the ensuing fiscal year. Existing provisions of the California Constitution prohibit the Legislature from sending to the Governor for consideration, and prohibit the Governor from signing, a Budget Bill that would appropriate from the General Fund a total amount that, when combined with specific appropriations and transfers, exceeds the General Fund revenues for that fiscal year estimated as of the date of the Budget Bill's passage.

*This bill would make statutory changes to implement and conform to constitutional changes proposed by ACA 4 and would become operative only if ACA 4 is approved by the voters.*

*ACA 4 would require the Legislature to establish a schedule of review of all state programs in which each state program would be reviewed once per every 10 years. This bill would establish the process for review of the performance of all state programs at least once every 10 years.*

*ACA 4 would make void a statute, and would prohibit submission to the electors of a constitutional amendment or revision proposed by the Legislature, that would result in either a net increase in qualified state costs or a net decrease in state revenue in excess of \$25,000,000 annually, unless the statute or measure also contains provisions, as defined in statute, to offset the increase in costs or loss in revenue. This bill would require the Legislative Analyst to make specified determinations regarding a bill or measure that would result in an annual net increase in qualified state costs, as defined, or a net decrease in state revenue, in excess of \$25,000,000. The bill would provide that a statute or measure is in compliance with the provisions of ACA 4 if the Legislative Analyst determines that the increase in qualified state costs or decrease in state revenues that would be imposed by the bill enacting the statute or measure does not exceed the amount by which state revenues exceed state expenditure obligations, as specified.*

*ACA 4 would require the state budget submitted to the Legislature by the Governor each year to contain performance measurement standards for state agencies and programs. This bill would establish performance-based budgeting for every state agency in the executive branch for which an appropriation has been made. The state agency would be required to prepare a complete and detailed budget setting forth all proposed expenditures and estimated revenues for the ensuing fiscal year. The bill would require the Governor's Budget to be based on this method beginning with the 2014–15 fiscal year.*

*ACA 4 would permit nonrecurring revenue to be expended only to pay for one-time expenditures. This bill would require that nonrecurring revenue, as defined, be used only for one-time expenditures, as defined, in the Budget Bill for the ensuing year, and would specify the process for estimating, evaluating, and determining the existence of nonrecurring revenue.*

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

8 *to the fiscal committees of each house of the Legislature and shall*

CHAPTER 1.5. NONRECURRING REVENUE

16330. For purposes of this chapter and Section 12 of Article IV of the California Constitution, the following definitions apply:

(a) “Nonrecurring revenue” means General Fund proceeds of taxes received in a fiscal year from any source that exceed both the amount that the state received from that source in the immediately preceding fiscal year and the amount the state expects to receive from that source in each subsequent fiscal year.

(b) (1) “One-time expenditure” means any of the following:

(A) A transfer by statute to the Budget Stabilization Fund.

(B) An appropriation for one-time infrastructure or other capital outlay purposes.

(C) An appropriation to retire, redeem, or defease outstanding general obligation or other bonded indebtedness of the state.

(D) The return to taxpayers within the current or immediately following fiscal year by a one-time revision of tax rates, or by rebates.

(E) An appropriation for unfunded liabilities for vested nonpension benefits for state annuitants.

(F) Appropriations necessary to meet the outstanding balance of the maintenance factor owed by the state for one or more prior fiscal years pursuant to subdivision (d) of Section 8 of Article XVI of the California Constitution.

(2) “One-time expenditure” does not include either of the following:

(1) An appropriation necessary to meet the state’s obligation under Section 8 of Article XVI of the California Constitution, including any maintenance factor allocation for the current fiscal year required pursuant to subdivisions (d) and (e) of that section.

(2) An appropriation necessary to balance the state budget for the fiscal year in which the nonrecurring revenue is received, the absence of which would produce a deficit for that fiscal year.

16331. Based on an analysis of the General Fund proceeds of taxes received through April 30 of each year, the Franchise Tax Board and State Board of Equalization shall identify each source of General Fund proceeds of taxes that is higher than the tax proceeds received from that source in the preceding fiscal year. The Franchise Tax Board and the State Board of Equalization

1 shall provide this information to the Legislature, the Governor,  
2 the Controller, and the public by May 15 of each year.

3 16332. By May 31 of each year, the Legislative Analyst and  
4 the Director of Finance shall jointly do all of the following:

5 (a) Estimate the amount of nonrecurring revenue deposited in  
6 the General Fund as of that date for the current fiscal year and  
7 provide this estimate to the Legislature, the Governor, the  
8 Controller, and the public. In determining this estimate, the  
9 Legislative Analyst and the Director of Finance shall consider, at  
10 a minimum, the Governor's estimate of nonrecurring revenue for  
11 the current fiscal year; historical growth in General Fund proceeds  
12 of taxes, including data provided by the Franchise Tax Board and  
13 the State Board of Equalization pursuant to Section 16331;  
14 economic conditions and projections; stock market trends,  
15 including data regarding capital gains and the exercise of stock  
16 options; and an evaluation of the revenue forecast for the prior  
17 fiscal year and the extent to which that forecast was accurate.

18 (b) Determine whether the amount of nonrecurring revenue  
19 received during the prior fiscal year was less than the amount of  
20 nonrecurring revenue for that fiscal year that was appropriated  
21 pursuant to subdivision (a) of Section 16333, and provide a  
22 certification of that determination to the Legislature, the Governor,  
23 the Controller, and the public.

24 16333. (a) By June 25 of each year, based on the estimate  
25 provided pursuant to subdivision (a) of Section 16332, the  
26 Legislature shall estimate the amount of nonrecurring revenue  
27 received for the current fiscal year. Except as provided in  
28 subdivision (b), nonrecurring revenue shall be used for one-time  
29 expenditures only and shall be appropriated in the Budget Bill for  
30 the ensuing fiscal year.

31 (b) If the amount appropriated pursuant to subdivision (a) in a  
32 prior fiscal year exceeded the amount of nonrecurring revenue  
33 received during that fiscal year, the excess amount may be  
34 deducted from the amount of nonrecurring revenue available for  
35 appropriation in ensuing fiscal years pursuant to subdivision (a).

36 SEC. 7. This act shall become operative only if ACA 4 is  
37 approved by the voters, and it shall become operative upon the  
38 operative date of that measure.

3 The Franchise Tax Board and the State Board of Equalization shall  
4 provide this information to the Legislature, the Governor, the

6 16332. By May 31 of each year, the Legislative Analyst and  
7 the Director of Finance shall jointly do all of the following:

8 (a) Estimate the amount of nonrecurring revenue deposited in  
9 the General Fund as of that date for the current fiscal year and  
10 provide this estimate to the Legislature, the Governor, the  
11 Controller, and the public. In determining this estimate, the  
12 Legislative Analyst and the Director of Finance shall consider, at  
13 a minimum, the Governor's estimate of nonrecurring revenue for  
14 the current fiscal year; historical growth in General Fund proceeds  
15 of taxes, including data provided by the Franchise Tax Board and  
16 the State Board of Equalization pursuant to Section 16331;  
17 economic conditions and projections; stock market trends,  
18 including data regarding capital gains and the exercise of stock  
19 options; and an evaluation of the revenue forecast for the prior  
20 fiscal year and the extent to which that forecast was accurate.

21 (b) Determine whether the amount of nonrecurring revenue  
22 received during the prior fiscal year was less than the amount of  
23 nonrecurring revenue for that fiscal year that was appropriated  
24 pursuant to subdivision (a) of Section 16333, and provide a  
25 certification of that determination to the Legislature, the Governor,  
26 the Controller, and the public.

27 16333. (a) By June 25 of each year, based on the estimate  
28 provided pursuant to subdivision (a) of Section 16332, the  
29 Legislature shall estimate the amount of nonrecurring revenue  
30 received for the current fiscal year. Except as provided in  
31 subdivision (b), nonrecurring revenue shall be used for one-time  
32 expenditures only and shall be appropriated in the Budget Bill for  
33 the ensuing fiscal year.

34 (b) If the amount appropriated pursuant to subdivision (a) in a
